

Transportation

Air Service

Natrona County International Airport is located in Casper and is the largest airport in Wyoming, providing easy access to domestic and international destinations. NCIA airport offers four runways, the longest over 10,000 feet, which will accommodate any size aircraft.

Rail Service

Burlington Northern Santa Fe connects Casper directly with dock spurs and freight forwarders.

Highway System

The Casper area is strategically located at the intersection of Interstate 25 and U.S. Highway 20/26 and 220.

Motor Carriers

Approximately 48 truck lines serve the Casper area with many maintaining terminal facilities locally.

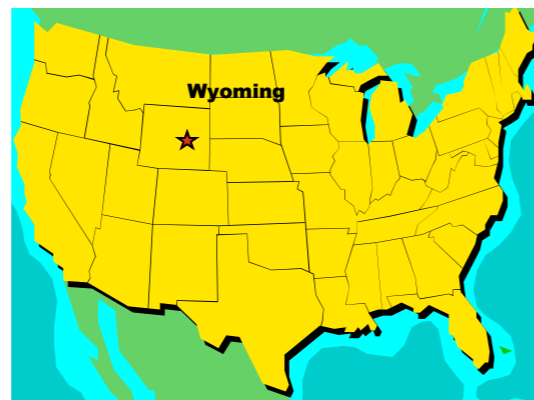

Express Delivery Service

UPS, Federal Express, and DHL have air cargo facilities at the Natrona County International Airport and operate jet freighters on a daily basis.

Forbes.com has singled out Casper as the #4 small Metro area for Cost of Doing Business, and #16 for Job Growth.

Forbes.com "Best Places" Issue, May 2006

Business Park Options

Casper, and the surrounding area, offer several choice business parks ideal for industrial, commercial, and retail development. These business parks have all utilities, including fiber-optic lines, and are conveniently located near major highways. Rail and air services are close by. In addition, many of these parks contain existing buildings that can be modified to suit your business needs.

Some of the largest parks are:

McMurry Business Park – 500 acres

Workforce Development

Training facilities in Casper are among the best in the region. Natrona County School District is a progressive institution providing K-12 education with many options for parent and children.

Advanced education opportunities include:

- Casper College: Certificate and trade programs through advanced studies in most professions and academic areas.
- University of Wyoming: Local presence at the University of Wyoming/Casper College Center expanding four year degree opportunities to Natrona County.
- Wyoming Contractors Association (WCA) McMurry Regional Training Center: Professional association providing members and associates with continuing and advanced training programs. Also offers safety training for the oil and gas industry.

The men and women who work at Casper College are experienced professionals in their fields. In fact, more than 80% of faculty have their masters or doctorate degrees.
